P.S. I understand that the new committee has been formed and we are looking forward to new meetings. We have decided to hold the meetings on Tuesdays after school from the upper offices of the school. The new committee will meet every Thursday and their meeting day is Friday with only one meeting outside of the normal day.

Point to Bender:

Dear [Name],

I hope this finds you well. We are looking forward to the activities this month. We will be holding a meeting on the third Wednesday at the back of the church, and the schedule for the next month will be released.

Sincerely,

[Signature]

[Handwritten note on the bottom of the page.]
"5 Easy Pieces" is one of the best presentations of a contemporary movement arising from a belief in forsaking the materialistic life to become closer to man and nature. Often categorized as the subject for "happily rebellion" movies, it has been very rarely projected thru a realistic point of view. This film, however, is rich and in a fusion of irony, symbolism, and action into the evaluation of a man's character. Each encounter of this man is a further indication of the paradox of "free" individuals. One of the most memorable of these is the conversation which takes place between the man and his father.

The film also contains social commentary which does not, as usual, remain on one level. "5 Easy Pieces" begins by exposing the viewer to a section of the working class; it is a total exposition of character and environment thru vocabulary and camera techniques. This combination of visual and verbal communication with the audience is continued throughout and makes the film both effective and affective.
