Celebrate USFSP's 50th Anniversary!

USF St. Petersburg is well underway on a fantastic, yearlong celebration of its 50 years of research, scholarship, student success, and community engagement.

This month, the USFSP Police Department unveiled a new badge. Look closely to see USFSP's official 50th Anniversary logo among the green and gold. "Once in a while, police will mint a badge to mark a special occasion," said USFSP Police Chief David Hendry. "In this case, we're wearing a badge to commemorate the university's 50 years -- a milestone."

Visit the USFSP 50th Anniversary website for more on our history and upcoming events.

USF St. Petersburg alumni staff and faculty met for the inaugural USFSP Alumni Reception on Oct. 5. Light refreshments were served and the event was followed by the kick-off of Homecoming Week 2015.

October has been a busy month of celebration for USF St. Petersburg, with a number of events still to come:

In early October, **Homecoming Week** kicked off with an Alumni Reception on Oct. 5. Students and staff participated in a number of activities and events throughout the week, including a 5K run, Homecoming Ball, Cardboard Boat Race, and campus fair, in addition to a carnival and Homecoming football game in Tampa.

The "**USF St. Petersburg by the Decades**" discussion series kicked off on Oct. 7. The panel of speakers consisted of several alumni, administrators and faculty who were part of the University’s early years.

The fun will continue on Saturday, Oct. 24 at 7:30 p.m. with **USFSP Night at the Rowdies**. Students, staff, faculty and alumni will cheer on the Tampa Bay Rowdies as they take on the Carolina RailHawks at Al Lang Stadium. The first 750 fans to enter the stadium will receive USFSP 50th Anniversary Rowdies cinch bags. There also will be a Tailgate at the Tavern event before the game at the Tavern at Bayboro, located next to campus.

On Monday, Oct. 26 at 12:30 p.m., **Dr. Charlotte Fritz** will help USFSP employees breathe with her presentation "Employee Recovery from Work." Fritz will describe how employees detach from work during non-work time to recover and unwind from work-related demands and stressors. The presentation will be held in DAV 130.
