This Other is brought to you for free and open access by the Nelson Poynter Memorial Library Faculty and Staff Meetings and Newsletters at Digital USFSP. It has been accepted for inclusion in Nelson Poynter Memorial Library Newsletters by an authorized administrator of Digital USFSP.
This reminder from Jan:

The large glossy Fall Schedule booklet that covers all campuses has incorrect information for the regional campuses. In error, all night classes at the regional campuses have been left out of that booklet. We have been instructed to keep the booklets behind the counter so that we can pass on this information to students requesting that booklet. Advise the students to use the St. Pete campus schedule book which has the complete and correct information.

Congratulations are in order!! Brandy (Technical Services) and Darlene (Circulation) graduated on May 3rd. Brandy majored in Classics and History. Darlene pursued her degree in Interdisciplinary Social Studies. Good work!!

Dorinne Banks, a former part-time reference librarian and instructor at Poynter, had her second child in March of this year. The little guy's name is Micah. Don (her husband) and Matthew (the oldest son) are delighted with the new family addition.

Lastly, (earth-shaking news is slim) Jackie Jackson and Deb Henry, with knees knocking and hands shaking, performed at the Annual Spring Piano Performance Class, held at the Gallery in south St. Petersburg. The musicale featured the life and work of George Gershwin and also included renditions of classical, impressionistic, contemporary and folk pieces. Other participants included Linda Torres (Marine Science/DEP) and Emily Gillespie (SAPL).

Reference Services News:

From Karilyn: Lists of the journals indexed in thirteen of the most commonly used databases on the Virtual Library are now available at the Reference Desk. They're in marked notebooks in the two end cabinets. The databases are:

*ABI/INFORM* Elsevier Science

*Academic Index* FastDoc

*Business & Industry* Health Reference
The ERIC Clearinghouse on Assessment and Evaluation is trying to organize links to full-text documents on the Internet that relate to educational assessment, evaluation, and research. This page is under construction.

**Virtual Library news:**

*Galenet, American Poetry 2, MathSciNet and NCJRS* are now available on the Virtual Library. Look under "what's new" then "recently purchased databases".

FirstSearch service is now available twenty-four hours per day, Monday through Saturday. FirstSearch will continue to be available twenty hours on Sundays, with down hours being 2:00 - 6:00 A.M. Eastern Standard Time.

The *FirstSearch Web Guided Tour* has been updated to include enhancements that have been made to FirstSearch over the past several months. It has also been reorganized for easier navigation. The *Guided Tour* is available on the OCLC Web site: [http://www.oclc.org](http://www.oclc.org).

To get to it directly, go to [http://www.oclc.org/oclc/fs/tour/fstour01.htm](http://www.oclc.org/oclc/fs/tour/fstour01.htm).

ISI has decided to temporarily disable the 'Format for Document Delivery' button on the Marked List page within the *Web of Science*. Pressing this button will now display a text page describing to users how an ISI Document Solution (IDS) order may be placed via mail, fax, email, telephone, and on-line through our Web site.

*Periodicals Contents Index* is now available through the Virtual Library. This resource indexes periodicals in the social sciences and humanities from 1790 through 1991. This is USF's first purchase through the ASERL (Association of Southeastern Research Libraries) consortia.

**WebLUIS news:**

The WebLUIS Home Page is significantly restructured. The various database selection lists on the home page will now have links to information pages describing the contents of the lists.

The toolbar is significantly simplified. Users will now select "Change Databases" (instead of from the various list options now appearing) and be returned to the WebLUIS Home Page. From there they will select the catalog or database list they want to choose from.

The BASIC search screen has been restructured to suggest to users that the "Search Type" selection be made first, to make pressing ENTER immediately after
entering a search more efficient, and to relocate the "Examples and Hints" links so they are not erroneously clicked as part of the search entry process.

The approved revised ADVANCED screens will NOT be able to be implemented along with the BASIC screen change due to the amount of time involved in making these changes. The WebLUIS Task Force has asked FCLA to go ahead and implement the revised BASIC screens and then implement the ADVANCED screens as soon thereafter as possible.
