Library Services and Resources in support of the Department of Criminology, 2013
Nelson Poynter Memorial Library, University of South Florida St. Petersburg

The Nelson Poynter Memorial Library physically located at the University of South Florida St. Petersburg (USFSP), houses an extensive collection of materials that support the educational, research, and service missions of USF St. Petersburg. USF St. Petersburg faculty, staff, and student have on-site access to the Poynter Library’s collection of over 224,760 items, including monographs, current periodical and serial subscriptions, newspaper subscriptions, and audiovisual titles.

In addition to the resources held at the USFSP library, the shared electronic resources of the USF System are available at all times, except for brief system maintenance. Currently, the USF Libraries subscribe to over 800 proprietary databases. Additionally, USFSP faculty and students can access documentaries and instruction videos available online through streaming media from such prestigious studios as the Alexander Street Press, Swank Video, Filmmakers Library Online, and the Annenberg Media Collection. All of these resources are available remotely to currently affiliated USF students, faculty, and staff through the use of NetID or an authenticated server.

USFSP faculty, staff, and students also have efficient interlibrary loan access or in-person borrowing privileges to resources of all libraries of the USF System as well as resources help by other local institutions of higher learning through a series of formal agreements. In addition to sharing resources with other libraries in the USF System, USF St. Petersburg’s Poynter Library is a member of Lyrasis, a full member of the Florida Library Information Network (FLIN), and the Tampa Bay Library Consortium (TBLC). Through participation in these networks, student and faculty borrow materials freely within the state, throughout the United States, and when possible, internationally. Courier service expedites interlibrary loan borrowing and lending, and Ariel technologies provide desktop delivery of digitized articles.
