USF/SP believes that participation in cultural and recreational activities is an integral part of a student's formal education, and that constructive use of leisure time is a desirable goal.

Due to the lack of cultural and recreational resources on the St. Pete Campus, student participation in many community events is directly subsidized to compensate for these deficiencies.

Students taking the majority of hours on the St. Peters Campus will be allocated 80¢ per credit hour to be applied toward subsidization. Proof of fee payment (usually the validated registration sheet listing your hours) and your photo I.D. are required.

Once you have used your subsidy, you may still buy tickets at our PURCHASE PRICE, which is often much lower than the regular retail price.

PROFESSORS HUMM AND FABRY RECEIVE AWARDS

The sixth annual University of South Florida distinguished faculty awards were presented to Dr. Harold J. Humm and Dr. Frank J. Fabry at USF's June 11th commencement ceremonies at Curtis Hixon Hall. Dr. Humm, a professor of marine science on the St. Petersburg Campus, will receive the Distinguished Scholar Award in recognition of his breadth of exemplary scholarship as a marine scientist.

The Distinguished Teacher Award will go to Dr. Fabry, professor of English, for his outstanding teaching ability.

The distinguished faculty members will each receive an engraved citation, plaque and a $500 check. Their names will also be engraved on permanent plaques displayed in the USF Room of the Library. Both were selected by the University Honors and Awards Council from nominees submitted by USF's faculty.

Dr. Humm is a leading authority on the marine algae of the western North Atlantic Ocean and the utilization of these algae by man. He has authored more than 90 publications about his research in the areas of marine ecology and marine algae, including commercial cultivation (mariculture or seafarming).

Among other projects, he has been growing three marine plants--Euchema, Hypnea and Gracilaria, in the laboratory. These plants produce substances including agar, used for the thickening foods, drugs, and cosmetics. Dr. Humm also received a federal grant in 1974 to study the effects of offshore oilwells in the Gulf of Mexico on algae and seagrasses. During World War II, he studied the uses of agar produced from seaweed.

Dr. Fabry had a founding role in the development of several major eastern marine laboratories, among them those at Duke University, Florida State University and USF. He was chairman of USF's marine science department from 1972-74.

He has had eight marine plants and animals named for him, including the Umbrella hydra, a red algae, and the Paguristes hummii, the hermit crab.

Dr. Fabry has been a member of the USF English faculty for 14 years. According to the citation which he will receive, he has "repeatedly demonstrated that he is a dedicated, thoughtful, imaginative, and creative teacher who treats his students with dignity, compassion and sensitivity."

He has achieved a national reputation as a specialist in Renaissance poetry and has published in distinguished scholarly journals including "Renaissance Quarterly" and "English Literary Renaissance." He is also the assistant editor of the "17th Century News," a scholarly review journal.

In addition to his USF teaching, he also was on the teaching faculty for the Florida State Overseas Study Center in Florence, Italy in 1970. There he taught courses in Shakespeare, metaphysical poets and the works of Italian Renai ce figures.

He holds B.A. and M.A. degrees from the University of Miami and a Ph. D. from the University of Texas.
The outrageous genius of American comedy, Mel Brooks, has another laugh hit in "Silent Movie". The plot, as if it matters, features Brooks as Mel Pum, a reformed alcoholic movie director on the comeback trail. He and his friends convince Producer Sid Caesar to finance a silent comedy, provided Brooks can supply big-name stars for the production. Does he ever!!

USF/St. Pete does not have a day care center on campus, but the Office of Student Services coordinates a unique program of direct subsidization of day care costs to student-parents with pre-school children.

REGISTRATION: First week of the Quarter; Registration day before each Quarter.

PROCEDURE:

1. The student-parent will apply for the Day Care Subsidy Program in the Office of Student Services. The first 25 students who apply will be guaranteed reimbursement at a rate of 50% of their costs, not to exceed $4.00 per quarter hour taken at USF, regardless of the number of children the parent enrolls. An additional 10 names will be accepted to replace any of the first 25 who do not comply with item #2. Student-parents must be taking the majority of their hours on the St. Petersburg Campus in order to be eligible for Day Care Subsidy.

2. Within one week of their initial application, each student must supply proof that his/her child has been accepted at a licensed day care center or home.

3. Upon presentation to the Director of Student Services of a paid receipt from the day care center or home listed on his application, the student will be paid 50% of that amount using the University process of paid invoices. That reimbursement will be recorded in his file.

4. Applicants will be asked whether or not they receive financial aid from USF. If so, the names will be provided to the Office of Financial Aids (Tampa) where any necessary adjustment will be made.

5. The reimbursement process takes place during the last week of each quarter.
Vice Admiral (Ret.) William W. Behrens Jr. has been appointed acting director of the new Florida Institute of Oceanography (FIO), a research center for the State University System of Florida, located on the University of South Florida St. Petersburg Campus (USFSPC).

His appointment, effective May 15, followed approval of the new FIO by the Florida Board of Regents at its April 3rd meeting.

Behrens has a long history of experience in oceanographic affairs and has served as an adjunct professor of marine science at USF for the past year. Previously he was associate administrator of the National Oceanic and Atmospheric Administration (NOAA) in Washington, D.C., for almost three years and Oceanographic operations and research for two years.

USF President John Lott Brown noted that "We are fortunate to have a person of Behrens knowledge and administrative ability to get the new Institute started in the right direction. For the first time, the State University System will encourage a coordinated effort in oceanography. This will be an unparalleled opportunity for faculty members from the various state universities to get together and design some significant research projects. The location at Bayboro Harbor is ideal."

In addition to serving as acting director of FIO, Behrens, 56, will continue his affiliation with the USF marine science department. In the fall, he and Dr. Ella Hanni, assistant professor of economics, will teach a course in marine policy.

Behrens is a graduate of the U.S. Naval Academy and received his master's degree in political science from the George Washington University. He completed requirements for his Ph.D. in nuclear engineering through the Naval Postgraduate School and was awarded his doctorate in science from Gettysburg College.

Behrens has also been federal coordinator for ocean mapping and prediction, has served on numerous national and international oceanography councils and has been a U.S. delegate to the International Law of the Sea Conference. He also was director of political-military policy for the Secretary of the Navy, a member of the Policy Planning Council, U.S. Department of State, and has been assigned to the U.S. Atomic Energy Commission.

Behrens has held four submarine commands, was founding director of the Naval Nuclear Power School and director of Submarine Sonar, U.S. Fleet School, Key West. He also was a submarine officer in World War II.

Behrens and his wife, the former Betty Ann Taylor of Tampa, have kept their residence in the Tampa-St. Petersburg area for many years. Currently they reside in Redington Shores while they are building a new home on Pinellas Point.

**SUMMER LECTURES AT THE ST. PETERSBURG MUSEUM OF FINE ARTS**

A lecture series entitled "HOW GREEN IS YOUR THUMB?" will be held at the Museum of Fine Arts during the month of July. The four informal talks on the art of horticulture will be given on Friday mornings, July 7, 14th, 21st and 28th from 10:00 A.M. until noon.

Mr. Jack Siebenthaler, of the Florida Nurserymen and Growers Association, a state-wide professional organization, will speak on Friday, July 7th on "Interior Scaping: Art of the 70's," and on Friday, July 14th, on "Theme Park Horticulture." Mr. Siebenthaler is also a consultant in the field of horticulture and landscape architecture.

On Friday, July 21st, Mr. G.1. Whitton, Director of the Pinellas County Cooperative Extension Service, will speak on "The Care and Maintenance of Your Lawn," and on Friday, July 28th, he will speak on "The Art of Growing Vegetables."

Tickets for the series are $5.00 per person and are available in the Museum offices Monday through Friday from 10:00 A.M. until 5:00 P.M. Tickets may also be obtained by mailing a check with a stamped, self-addressed envelope to the Museum of Fine Arts, c/o Education Department, 255 Beach Drive North, St. Petersburg, FL 33701. Tickets for individual lectures will not be available.

For further information call Angie Grady, Curator of Education, at 823-3644 or 896-2667.

ST. PETE STUDENTS HONORED
AT GRADUATION GALA

Ten University of South Florida St. Petersburg
Campus (USFSPC) students were recognized as
outstanding seniors during the campus's annual
graduation celebration June 9.

Eight students from St. Pete, one from Largo
and one from Clearwater were among those honored.
They are Bette Groves of Largo, Kathryn Judy of
Clearwater and St. Pete residents Sylvia Barr,
Richard Carpenter, Helen Champlain, Nancy DeLeon,
Teresa Jordan, LuRay Reyburn, Judith Sarazen and
E. Vincent Wix.

In addition, Ms. Champlain and Ms. Barr received
the St. Pete Alumni Association outstanding
student award.

Also recognized as St. Pete Campus honorees
listed in Who's Who in American Colleges and
Universities in 1978 were Ms. Barr, Ms. Champlain,
Ms. DeLeon, Ms. Groves and Ms. Sarazen.

Stuart Wilmarth received an award for outstanding
service.

Approximately 330 persons attended the festivities
coordinated by Chairperson Karen Sailers and
Committee Bob Clark and Lu Hubbard. Mr. David R.
Kenerson was honored guest speaker. Sgt. James
Miller received the senior class appreciation
award.
