**Executive Summary**

Since its inception as the repository of Nelson Poynter’s papers, the USF St. Petersburg library has obtained a variety of rare books, manuscript and audio/visual collections, and other primary sources materials that form the core of our Special Collections and Archives area. I had the honor of joining the faculty of the Nelson Poynter Memorial Library as assistant librarian for special collections on 19 February 2002. For the first few months, efforts focused on learning and developing policies and procedures, organizing collections, creating departmental web pages, understanding general collection development parameters, and establishing regular hours of service. This report summarizes institutional and personal tasks, challenges, and accomplishments during the period from February through June 2002. Beginning in the 2002-2003 academic year, quarterly reports will be issued for the Special Collections and Archives area of the library.

Respectfully submitted,

*Jim Schnur*
