This Other is brought to you for free and open access by the Library reports, guidelines, and instructional materials at Digital USFSP. It has been accepted for inclusion in Library Department and Committee Reports by an authorized administrator of Digital USFSP.
Services

The Instructional Media Department makes available a large array of media and distance education technologies. The Poynter Library's Media Center has three large and three small group listening and viewing rooms for all audio and video formats, a digitization center, a studio seating 32, control room, production room, dubbing and archive room, storage and repair rooms. The instructional materials and juvenile collection reading areas seat 44.

Each classroom on campus is equipped, at minimum, with an overhead projector, television monitor or data projection system, computer and DVD/VCR. All classrooms now provide data and video projection or presentation. Instructors may arrange for other standard audiovisual equipment as needed through written or online requests.

State-of-the-art and standard classroom equipment for checkout or delivery and set-up include:

Camcorders, tripods, digital cameras, data projectors, document cameras, DVD players, cassette recorders, laser disc players, laser pointers, TV/VCR’s, microphones, stands, mixers, amplifiers, overhead projectors, podiums, slide projectors, screens, and boom boxes.

Instructional Media Services is responsible the teaching technologies found within the USF St. Petersburg smart classrooms. The Department is focused on supporting the University in its teaching, learning and research endeavors.

The Department supports, services, and upgrades all of the equipment within campus teaching spaces and responds via its Help Desk to any problems that users may encounter. The department prides itself on quick response to requests, technical support, and other services.
The Department is responsible for the Video Conferencing facility located in the Poynter library. A satellite dish installation can now provide independent satellite downlinks. Videoconferencing set up allows for worldwide communication.

Digital audiovisual services are provided to faculty, students and staff to develop multimedia packages for teaching, delivery of information, learning and research.

**Deliveries and set ups**

As it is the goal of the department to provide fixed equipment at all service points, these numbers only reflect direct requests via email, mailed, fax, or web. 90% of USF St. Petersburg’s classrooms have data/video projection, DVD/VHS playback, and computers permanently installed. Since these installations, many faculty and staff do not request equipment they use regularly in class if the rooms already house the equipment.

2006-2007

1666 Courses/Classes/Sections supported in 47 classrooms.
60% of classrooms are “smart” classrooms.

2005-2006  2251
2004-2005  2669
2003-2004  4068
2002-2003  2801
2001-2002  2263

**Distance Learning**

Distance Learning extends the University of South Florida St. Petersburg academic resources to help learners meet their educational goals by providing courses in a variety of disciplines and options in time, place, format, and delivery systems using technology.

The staff of the Instructional Media Services assists faculty in the form of consultation, design, and/or maintenance for online distance learning applications.

Courses are offered online via the World Wide Web, and typically utilize USF’s Blackboard portal to gain access to course materials. Examples of distance learning formats include streaming video, podcasting, and hybrid, interactive CD and DVD’s or any combination thereof.

Online courses are offered as streaming video or podcasting and use high-speed Internet access; an active e-mail account and Internet access is required. Instructor interaction with students may be synchronous or asynchronous. The staff of the Instructional Media Services assists faculty with student use of these functions.
When faculty prefer, the hybrid method includes courses using both synchronous and asynchronous software to provide faculty and students with options, such as 50% web and 50% face-to-face course.

2006-2007
1 studio course, 3 satellite/web downlinks, 31 video/web/teleconferences, 4 Distance Learning courses recorded, designed, and digitized now distributed to over 600 students per semester.

2005-2006
Two studio courses, two satellite downlinks, 19 video, web, and teleconferences, 6 Distance Learning courses recorded, designed, and digitized, now distributed to over 450 students per year.

2004-2005
3 studio courses, 36 studio broadcasts, 2 satellite downlinks, 28 video and teleconferences, 2 Distance Learning courses recorded, designed, and digitized, now distributed to over 200 students per year.

2003-2004
38 classes, 36 studio broadcasts, 4 satellite downlinks, 78 video and teleconferences

2002– 2003
49 classes, 17 studio broadcasts, 72 video and teleconferences

The AV Department also provides for other on and off campus events and presentations, such as recording lectures, graduations, etc., and digital and analog photography.

**USF Card Production**

2006-2007  1843
2005-2006  1693
2004-2005  2483
2003-2004  2745
2002-2003  2124
2001-2002  1706

**Media Center Collections**

The Instructional Media Collections of the Nelson Poynter Memorial Library serve the instructional and curricular needs of the USF St. Petersburg community and the individual study, scholarship, cultural enrichment and recreation needs of University students, staff, and faculty. All items circulate and are accessible through the Library’s online catalog.

The Instructional Materials Collection (IMC) includes juvenile easy–to-read, juvenile fiction, juvenile non-fiction, school textbooks, teacher's manuals, guides, games, kits, and paperbacks.
The Media Collection contains DVDs, videotapes, cassette tapes, CDs, and slides. They all circulate for one week and are renewable.

**Other Notable Initiatives and Accomplishments**

Four additional Distance Learning courses were completed during the 2006-2007 academic year. Classes are being offered that are totally distributed digitally. IM Services has recorded classes with students, and placed them on discs along with PowerPoint presentations and links to Instructor sites. Some classes have been recorded with no students and are being filmed strictly for digital and web delivery. USF St. Petersburg has taken a technological lead in these efforts. It quickly developed, in conjunction with the Office of the Vice Chancellor for Academic Affairs, into a major direction for departmental resources. IM now supports eleven online distance-learning courses. The combined number of students is over 600 per semester, a significant growth over the past several years.

Was integral part of the planning, bidding, and installation of new sound and projection equipment for the CAC, the newly remodeled cafeteria, and the new classroom in Residence Hall 1.
Took off inventory and disposed of obsolete equipment in the Production Room and Storage Room.

There has been increasing departmental support for Special Events such as Festivals, Convocations, building openings, celebrations, dedications, conferences, Campus Board meetings and other non-academic and classroom activities. These have increasingly required the services of IM Services at night and on weekends.

The department participated in the Classification Redesign Project. All three staff members were reclassified.

The department has taken on the responsibilities for billing and reconciliation of all USF cards.

The distance-learning studio was upgraded to a new digital package. This also included new remote controlled camera requiring less staff to run broadcasting, recording, and receiving.

Purchased and installed new Videoconferencing equipment in Media Center.

Designed and installed new data and audio equipment in the Biology Lab. Installed new audio and digital projection equipment in the Florida Center for Teachers.

Upgraded and updated the departmental website, including posting current information on newly acquired media items.

Updated the departmental brochure for distribution.

Assessed and weeded all VHS videotapes. Withdrew outdated and damaged VHS videotapes. Recased damaged cases. Shifted entire video collection. Shelf read entire media collection

Created, with Head of Reference, two online Reference tutorials.
