We are repurposing one of the former listening/viewing rooms in the Instructional Media Services and Distance Learning suite for a new service that we are calling MyStudio Booth. The MyStudio Booth is a simple one button video recording setup that will capture a video image of the person as well as a computer display such as a PowerPoint presentation. MyStudio will allow users to create high-quality video projects without having to know anything about video cameras or editing.

We look forward to seeing you at one of our Canvas Open Labs!
