   k. USF System Banner Task Force Update
      Prerequisites: The task force is making progress in their work toward finding a mechanism that will allow USFSP to code unique prerequisites to USFSP sections of courses that are shared with USF Tampa. In this effort, they must first acquire a definitive list of courses for which USFSP differs in prerequisite requirements from Tampa. To that end, they will be asking each college to review their course descriptions in the course catalog and determine which courses’
prerequisites are more (or less) restrictive. An email with instructions will be sent to the Deans, who will be asked to work with their departments/key program/college personnel to complete this task.

Unique Major codes:
The idea of creating unique major codes has been tabled. The committee will still work on finding solutions to the simple problems, but will hold off on pursuing the complex ones. At the last system meeting, there was discussion about the possibility of USF engaging a consulting firm to examine the Banner issues.
