3. Dean’s Report
   New Business
   • Reorganization of the administrative team in the College of Education
     Grants and Foundation Proposals Submitted
     • With Marine Science, we were invited to submit a proposal to NSF, *Minorities Striving and Pursuing Higher Degrees of Success in Earth System Science (MS PHD’S) Virtual Classroom Education and Mentoring Program* for $750,000 over three years, to partner with Rawlings Elementary School (Shirley Lorenzo, principal), Lealman Elementary School (Elaine Miles, principal), and Clearview Avenue Elementary School (Mary Jane Dann, principal) to enrich the earth science curriculum by using science mentors. There is no required commitment for the COE beyond my time dedicated to the project as co-PI. If funded, we will receive a full-time graduate assistantship for a new student in the Math/Science masters program.
     • With the Pinellas County Schools, we were invited to become their higher education partner in submitting a proposal to the Florida Department of Education, *Mentoring New Teachers in High Turn-over Teaching Environments to Increase Teacher Retention and Improve Student Learning*. For the first part of the project, we agree to accept as students two experienced teachers from the PCSD with full tuition paid who will register for the first two courses in the Teacher Leadership Certificate Program in the Educational Leadership Program. I have discussed this with the entire Ed Leadership faculty, and they endorse our participation. For the second part of the project, the PCSD will subcontract with the COE for $37,000 to offer staff development sessions once a month for 1 ½ hours each month for five months to new teachers at Gibbs High School on topics correlated to the curriculum on new teacher support and mentoring: teacher expectations and student achievement, creating learning communities, motivation and learning, etc. The subcontract has additional funds to support COE faculty to work with the district in developing a new teacher mentoring strand for the district’s Beach Camp for all new teachers, which the district offers each August. Before submitting the grant, I spoke with several faculty members actively engaged in research in these areas and asked them if they would be interested in participating. All of them agreed to participate if the project is funded.
     • We were invited by the Progress Energy Foundation to submit a renewal application for our Leadership for Results program. In addition to requesting a renewal of the $75,000 award, we have requested an additional $60,000 to support a Teacher Leadership Institute during the summer of 2006, in conjunction with the Pinellas County School District.

Academic Learning Compacts
   • Elementary Education and Special Education faculty have been working on the assessments for the outcomes of the Academic Learning Compacts required by the Florida Board of Governors for all undergraduate programs at SUS institutions. Lisa Kahn in Academic Affairs is reviewing the drafts, and she will be providing us with feedback soon. The final deadline is November 18.

Council of Deans’ Update
- Budget and Resource Committee approved funds for Academic Affairs to hire someone to be responsible for post-award support for grants campus-wide.
- SACS Team leader, Dr. Sandra Harper, Provost at Texas A & M, will be here all day on November 18.
- Classroom technology updates paid for by a contribution from each college include projection equipment, new arm chairs, and projection and computer cabinets. These will all be in place by the beginning of the spring semester.
- 2006-2007 Sabbatical applications due January 10, 2006. Eligible faculty in the College of Education are Bill Heller (one semester at full pay, two semesters at two-thirds pay, or two semesters at one-half pay), Terry Rose (one semester at full pay or two semesters at one-half pay), Guda Gayle-Evans (one semester at full pay), and Kim Stoddard (one semester at full pay or two semesters at one-half pay).

b. Code of Ethics for Tenure and Promotion
   The Council discussed the Code of Ethics and has decided to wait for further developments.

c. Constitutional amendments and voting eligibility:
   1. The Council discussed the attempted vote on the Constitutional Amendment. The Vice Chair will conduct another election in January.

7. Faculty Council Report: Deanna Michael reported.
   1) Student concerns regarding accreditation have been raised by students in the COB due to the fact that Dean Ron Hill and the Executive team are all stepping down as of Dec. 21st. The campus administration has assured students and faculty that the programs within the COB and accreditation will continue to move forward. In addition, an interim Dean will be in place by the end of the semester or sooner.

   2) The Code of Ethics discussion continued. All three colleges will send representatives to create a draft document which will then be sent out to all faculty for approval. The issue of e-mail communication during any review process was discussed. It was determined that no e-mail deliberation should take place during any review process.

   3) Campus wide committee membership is still being developed with a need for student representation on several committees.

   4) College Reports:
      MS Report: The Dean of the College of Marine Science will be stepping down in a few years and the College would like faculty representation from USFSP when the search committee convenes. The faculty in MS also supports the changes made in the recreational fees while still concerned that family members must pay to use the facilities.

      COE Report: No meeting has been held since the last FC meeting.

      Library Report: No meeting has been held since the last FC meeting.
