This Other is brought to you for free and open access by the Online Learning and Instructional Technology Services (OLITS) at Digital USFSP. It has been accepted for inclusion in Professional Development by an authorized administrator of Digital USFSP.
Considering placing some of your course content online? Then we have the session for you!

Modules allow you to organize your content to help control the flow of your course. Files are where you upload course files, syllabi, readings, or other documents. Files can be placed in Modules, Assignments, or Pages. Pages are where you can put content and educational resources that are part of your course but don’t necessarily belong in an assignment, or that you want to refer to in multiple assignments. This is a place where you can include text, video, and links to your files. You can even make links to other pages.

Join us for this hands-on session and get started adding your content to Canvas.
