USF ROTC Number One in USA!
University of South Florida's Army ROTC Cadets are again ranked first in the nation as a result of their outstanding performance at ROTC advance camp this past summer.

USF cadets, in conjunction with St. Petersburg Junior College and St. Leo's College (cross enrolled) cadets, won the Warrior of the Pacific Trophy in keen competition this year.

The trophy is awarded annually to the institution which attains the best overall performance score based on evaluation of individual cadet performance. The USF cadets competed with over 8500 cadets from 280 other Army ROTC host institutions throughout the United States and Puerto Rico. The leadership abilities and performance of all cadets at Army ROTC advance camps are evaluated in determining the winning institution. Specific areas of evaluation include physical conditioning, military skills, job performance, leadership ability, and peer ratings.

The annual ROTC advance camps are conducted at Fort Riley, Kansas; Fort Lewis, Washington; and Fort Bragg, North Carolina.

The USF contingent at Fort Bragg advance camp this summer consisted of 30 cadets. Four of these cadets, William Whelehan, Jeffrey O'Donnell, Mark Perry, and John Kirkendall are students at USF/St. Pete.

LECTURE SERIES PRESENTS J. P. MAYER

The USF/St. Petersburg Campus Lecture Series Committee presents a lecture by DR. J. P. MAYER on the subject "Tocqueville and Marx" at 7:00 PM on Tuesday, November 25 in SPB-159.

DR. MAYER is one of the century's most important figures in political philosophy. He was co-editor of the original publication of Marx's early writings, wrote a famous book on Max Weber, and a survey of Political Thought. In recent years, he has been editor-in-chief of the official edition of Tocqueville's works, and his study of Tocqueville is a standard work. His books have been translated into French, German, Spanish, Finnish, Korean and Japanese. For his work on Tocqueville, he has been made Chevalier and later Officier of the French Legion of Honor, which is quite an achievement. When the NEW YORK TIMES planned to produce a reprinting of the important texts in political thought, he became editor-in-chief.

For further information, contact the Activities Office (SPB-113).

HEALTH TIP: SECOND-HAND SMOKE

Parents who smoke at home can aggravate symptoms in some asthmatic children and even trigger asthma attacks. There are millions of people, adults as well as children, who are sensitive to tobacco smoke and suffer smoke-caused asthma attacks. Parents should limit their smoking to separate rooms away from these children or, better yet, should quit smoking altogether.

Even among nonasthmatic children, a team of researchers found that respiratory illnesses happened twice as often to young children whose parents smoked at home compared to those with non-smoking parents.

HOUSEHOLD TIP:

TO REMOVE DECALS FROM A WALL without damaging the surface underneath, soak rags in warm vinegar and tape them over the decals. After a short time, the vinegar softens the decals, and they will wipe away. For stubborn spots, use a second treatment.
