Commencement : 2018 : Spring : Program

University of South Florida St. Petersburg.
Dear graduates,

All of the hours, all of the late nights and early mornings, all of the sacrifices you made over the past few years have led you here. To this day, this stage, this moment. This ceremony represents the culmination of each of the individual decisions you made – day in and day out – to keep reaching for your goals.

But today is more than a closing of a chapter. Today represents continual growth in your chosen craft. Today honors the life-changing insights you've gained by engaging in dialogue with others of differing viewpoints. Today knows that you will be empowered by your confidence, and today knows you are only limited by your wildest dreams. It is because you are here, and because again and again you made the choice to reach higher, and because you know that today is just the beginning.

May today's celebration be not of what's behind you, but of the incredible potential ahead. May today you toast to the challenges you’ll face head-on; To the problems you will solve; To the opportunities you’ll have to make life better, to change the world.

May you continue to embrace every challenge that comes your way. May your growth never cease. May your journey take you all over the world, and may you always find a way back to USF.

Congratulations, and GO BULLS!

JUDY GENSHAFT, PRESIDENT
UNIVERSITY OF SOUTH FLORIDA SYSTEM
Dear graduates,

Congratulations! You have achieved a significant milestone in your life: You are a 2018 graduate of the University of South Florida St. Petersburg. We could not be more proud of your accomplishments.

We hope that you will take all of your college experiences with you as you begin this new journey. The time you spent inside and outside of our classrooms has prepared you for a promising future. As citizen scholars, you possess the knowledge and skills to ensure success in your chosen careers. More than that, you possess a strong capacity for caring – for each other, for our environment and for the communities in which you live and work. You are the next generation of leaders!

The faculty and staff at USF St. Petersburg are very proud to have played a role in your achievement. Many of them are here today to celebrate with you. We hope that we have both challenged and inspired you to go out into the world and make a difference. As we watch each of you cross the stage today, we will be reminded of why we chose this work and how fortunate we are to play a role in your book of life.

This is a great day. Graduation is worth celebrating. Here's to you and to all you will accomplish in the coming years.

MARTIN TADLOCK
INTERIM REGIONAL CHANCELLOR
AN ACADEMIC PIONEER

Nestled along the waterfront on beautiful Bayboro Harbor, USF St. Petersburg opened for classes September 7, 1965 in the barracks of a World War II Merchant Marine Base. The state legislature established it as an official campus of the University of South Florida in 1968. Its first degrees were conferred to 51 students in elementary education.

Today, USF St. Petersburg is considered one of the loveliest urban campuses in the nation, and as part of the University of South Florida System, serves more than 6,000 students. This separately accredited university offers programs at the baccalaureate and master's levels.

USF St. Petersburg's array of arts and sciences, business, and education programs, combined with stellar faculty, creates a vibrancy and dynamic energy that pervades the campus community.

CURRICULA IN THE COMMUNITY

USF St. Petersburg, identified as a master's comprehensive institution by the Carnegie Foundation for the Advancement of Teaching, also holds the prestigious Community Engagement Classification from the Carnegie Foundation. The designation honors the university's alignment among mission, culture, leadership, resources, and practices that support dynamic and noteworthy community engagement.

By pairing courses with corporate and community partners for immersive learning, professors involve students in the world outside the classroom.

STEWARD OF ITS ENVIRONMENT

USF St. Petersburg values its stewardship of the environment. Students lead efforts to improve the environment in and around the university and the wider community. Students established a green energy fee to help fund sustainability initiatives at the university. The institution currently is leading research around the collection and storage of renewable solar energy, and worked closely with City officials to author a Climate Action Plan for the campus.

In spring 2017, USFSP officially opened Lynn Pippenger Hall, home of the Kate Tiedemann College of Business, and new Science Labs, its third and fourth buildings constructed to meet the U.S. Green Building Council's LEED (Leadership in Energy and Environmental Design) certification standards. In fall 2014, the University Student Center earned LEED gold certification. USF St. Petersburg's Science and Technology building was the first in the USF System to achieve LEED recognition.

LEED certifications underscore the university's commitment to sustainability. The sustainability ribbon represents the students' lifetime commitment to a healthy environment.

USF SYSTEM LEADERSHIP

Judy Genshaft, USF System President
Ralph Wilcox, USF System Provost & Executive Vice President
David Lechner, USF System Senior Vice President for Business and Financial Strategy
Charles Lockwood, USF Senior Vice President for USF Health and Dean, USF Morsani College of Medicine

USF St. Petersburg is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate and master's degrees. Events, activities, programs and facilities of the University of South Florida are available to all without regard to race, color, marital status, gender, sexual orientation, religion, national origin, disability, age, Vietnam or disabled veteran status as provided by law and in accordance with the University's respect for personal dignity.
THE SYMBOLS OF LEARNING

Modern academic regalia evolved from the kinds of apparel worn by monks and students in the 11th and 12th centuries to keep warm in the medieval castles and halls in which they studied. Academic life as we know it today began in the Middle Ages — first in the church, then in the guilds. The teaching guild was the Guild of the Master of Arts, and the Bachelor was the apprentice of the Master. Their dress was the outward sign of stature and responsibility. Academic regalia was thus a visible manifestation — in color, pattern and design — that unified those of common discipline and like purpose. In later centuries, to preserve the regalia's dignity and meaning, universities set rules of academic dress. American universities agreed on a definite system in 1895, establishing a code of approved attire. In 1932, the American Council on Education revised this code, which, for the most part, governs the style of academic dress today. The principal features of academic dress are three: the gown, the cap and the hood.

THE GOWN — The gown has become symbolic of the democracy of scholarship, for it completely covers any dress of rank or social standing. The sleeves of the gown indicate the level of the degree held by the wearer. A long, pointed sleeve indicates the bachelor's degree. The master's gown has an oblong sleeve cut in an arc, with a slit at either the upper arm or wrist. The USF doctor's gown has bell-shaped sleeves and three black bars on the sleeve. The doctoral robe also has the seal of the university on the velvet facing.

THE CAP — The freed slave in ancient Rome won the privilege of wearing a cap, and so the academic cap is a sign of the freedom of scholarship and the responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as a square symbolizing the book, although other authorities claim that it is a mortar board, the symbol of the masons, a privileged guild. The color of the tassel on the cap denotes the discipline. The tassels on the caps (mortar boards) worn by the faculty may be black or a color indicating the degree. Those who hold a doctoral degree may wear a gold tassel. It is traditional for degree candidates to wear their tassels on the right and for those holding degrees to wear them on the left. Graduates transfer their tassels to the left after conferring of the degrees by the President.

THE MACE — The USF Mace, used during all Commencement ceremonies, is a ceremonial staff similar to those used by many institutions of higher learning to show the right of academic institutions to grant degrees to graduates. The USF mace is used during all Commencement ceremonies and is carried by the President of the Faculty Senate. Our mace includes a gold pine cone at its top to represent growth and continuity. Eight silver semicircles, which support the pine cone, stand for the eight colleges in existence at USF when the mace was commissioned in 1998. When not in use, today's mace is displayed in the foyer of the President's office. The original university mace is on display in the Alumni Center.

THE MEDALLION — The medallions worn by candidates for the bachelor's degree identify those graduating with honors. The black hood of a bachelor's candidate indicates a student who has earned the Honors College degree.

THE SASH — The golden-colored sash is made available to students who are members of university honors societies. The sash is embroidered with the university seal and the student's honors society. International students may choose to wear a special sash honoring their home country. The colors of their sash reflect the colors of their native flags.

THE HOOD — The hoods are lined with the official colors of the institution conferring the degree. They are edged and bound with velvet of the color appropriate for the degree. At USF, the lining of the hood is green with a gold chevron, representing the university's colors.

THE COLORS — In regalia, academic disciplines are noted by color. These colors can be found on undergraduate and masters, tassels and on master and doctorate hoods on the velvet edging.

- Apricot — Nursing
- Black — Independent Studies
- Blue (dark) — Philosophy, African Studies, Economics, History, International Studies, Medical Sciences (doctorate), Political Science, Psychology, Sociology, Women's Studies
- Blue (light) — Education
- Blue (peacock) — Public Administration
- Blue (Rhodes) — Audiology
- Brown — Visual and Performing Arts
- Citron — Social Work, Criminology, Rehabilitation and Mental Health Counseling
- Copper — Economics
- Crimson — Mass Communications
- Drab — Business
- Green — Medicine
- Orange — Engineering
- Pink — Music
- Salmon — Public Health
- Violet — Architecture
- Silver — Speech Communications
- Teal — Physical Therapy
- Yellow — Anthropology, Biology, Bio Medical Sciences, Chemistry, Communication Sciences and Disorders, Environmental Science, Geography, Geology, Gerontology, Information Technologies, Medical Sciences (Masters), Medical Technology, Mathematics, Marine Science, Physics, Speech Pathology
- Yellow (lemon) — Library Science
- Yellow (pineapple) — Hotel and Restaurant Management
## ORDER OF EXERCISES

### Participants

- **Mace Bearer**: Debra Sinclair
- **Ceremony Reader**: Thomas Smith and Todd Shank
- **Marshals**: Kaya Van Beynen, Deanna Michael, Michelle Madden, Kathleen Gibson-Dee, Noel Takeuchi, Madhu Pandey, Jill McCracken, Linsey Grove, Alex Branch
ALEXANDRA KUCHTA  OUTSTANDING GRADUATE

The University of South Florida St. Petersburg Outstanding Graduate Award, given by the USF Alumni Association, recognizes a graduating senior who embodies leadership, school spirit, community service, character and scholarship. For Spring 2018, the Outstanding Graduate is Alexandra Kuchta.

Alexandra is the ideal of what it means to be a hardworking, driven and compassionate student during her four years at USF St. Petersburg. While majoring in political science, minoring in geospatial science and earning an overall GPA of 3.96 while in the Political Science Honor Society, Alexandra has involved herself in some of the most rewarding internship and volunteer experiences a student can have.

For four consecutive summers, she has worked at the U.S. Embassy in London, putting to practice the knowledge she gained from USF St. Petersburg political science courses while further solidifying her passion for public service. She attained the responsibility and performed the tasks of a Junior Foreign Service Officer, where she drafted, edited and prioritized content in the Embassy's Daily Report, a time-sensitive list of vital news as it relates to the relationship between the U.K. and U.S. Her work ethic and leadership skills resulted in the Embassy giving her increasingly complex tasks, such as being the site officer for official state visits by Attorney General Loretta Lynch, Secretary of State John Kerry and First Lady Michelle Obama.

Stateside, Alexandra earned a highly competitive internship in the Florida Legislature with State Senator Jeff Brandes. This experience helped her understand how to enact meaningful legislation by garnering critical constituent support. She also found a way to incorporate her own studies into this experience.

For her senior term project in her Geographic Information Systems course, Alexandra sought about addressing the disparities present in Florida's foster care system. Alexandra analyzed the number of out-of-home placements in each of Florida's 67 counties, and included descriptive socioeconomic factors present in each county to present to state representatives. She now intends to work with legislatures to submit meaningful legislative reform in the 2019 session.

"Alexandra is bright, hardworking, wordly, driven and extremely pleasant," said Dr. Thomas Smith, USFSP Political Science Professor and Director of the Honors Program. "She is poised to leap into this rapidly globalizing world due to her broad array of work and extracurricular interests that balance her academic achievements."

School and internships only speak to one facet of Alexandra's achievements these past four years. As a volunteer with CASA (Community Action Stops Abuse), she led an effort to restructure the cell phone recycling project at the domestic abuse shelter, making it both profitable and sustainable. CASA collects cell phones from the community, which are then turned into emergency cell phones for victims. But there was no system for organizing the many phones collected, and many phones that did not work simply were discarded. Through research and leadership, Alexandra provided a set of recommendations that CASA soon implemented on how best to organize and inexpensively fix phones, and then trained new volunteers on these recommendations. She also produced a manual for others to follow in the future. With the changes, the program raised over $45,000 and ensured funding for cell phones and other programs for victims.

"Ms. Kuchta has left an imprint at CASA that will last well into the future, affecting both volunteers, staff and the survivors of domestic violence that we serve each day," said Kelly Steele, Volunteer Specialist at CASA.

Alexandra is graduating with a Bachelor of Arts in Political Science. She is currently studying for the Foreign Service Officer test, which she intends to take over the summer. This will be the first of many steps along her path to become a Foreign Service Officer with the U.S. Department of State.

"The last four years I have spent at USF St. Petersburg have been extraordinary and helped to shape me into the person I am today, a woman of substance wanting a life of meaning," said Alexandra. "This university empowered me to strive for more than I initially thought possible."
A tradition since 1988, the King O’Neal Scholars are recognized each semester by the USF Alumni Association in honor of charter graduates Lucas King and Evelyn O’Neal. Graduating seniors with the highest overall grade point average, a 4.0 GPA, are identified as King O’Neal Scholar candidates during commencement ceremonies. The recipients of the King O’Neal award also receive a certificate of accomplishment and a gold medallion with the university seal.

**DANIEL ADAMS**

Daniel Adams is receiving a Bachelor of Science in Biology with a concentration in Biomedical Sciences from the College of Arts and Sciences. While at USF St. Petersburg, Daniel worked at the Johns Hopkins Children’s Research Institute under the stewardship of his professor, Dr. Sridhar. His research investigated the function of a protein connected to causing metastasis of prostate cancer cells. After graduation, Daniel hopes to continue his research and pursue a degree in medicine and one day become a physician.

**CATHERINE TAUNTON**

Katie Taunton is graduating with a Bachelor of Science in Health Sciences from the College of Arts and Sciences. While at USF St. Petersburg, she was a member of The Honor Society of Phi Kappa Phi Chapter 126 and of the Tau Sigma National Honor Society, all while maintaining a part-time job. After graduation, Katie will pursue a career in Physical Therapy and has been accepted into the Doctorate of Physical Therapy program at the University of Florida.
Dear Graduate,

Congratulations! Today is your first day as a USF alumnus, a distinction you have earned and will proudly hold for the rest of your life. It is a special day for you and the friends and family who supported you.

Since the first graduating class in 1963, USF alumni have brought honor and distinction to the university in many areas, including medicine, business, law, the arts, public service, technology, engineering and education. With each passing year — and graduating class — the university's stature grows as its alumni are recognized across the state and nation, and around the world.

From this day forward, you will carry on that tradition. Wherever your future takes you, you'll carry with you the distinguished reputation of a world-class university. I personally invite and encourage you to stay connected to your Alma Mater through the USF Alumni Association.

Your membership connects you with your fellow Bulls and creates meaningful ways for all of us to:
- Promote and protect USF
- Share your USF pride
- Stay connected
- Make an impact and help USF succeed

Take full advantage of your first year complimentary USF Alumni Association membership by getting involved in your local chapter (we have USF alumni chapters around the globe!) and your college alumni society.

We are incredibly proud of the accomplishments you and your family celebrate today. With your degree and educational experiences to reflect on, you are now truly Unstoppable!

In Bull Pride,

APRIL MONTEITH, '01, MBA '03

CANDIDATES FOR THE BACHELOR’S DEGREE

At the University of South Florida St. Petersburg, we take great pride in the academic achievements of our students. Undergraduate students who are graduating with a grade point average of 3.5 or higher are recognized in this Commencement program as graduating with honors, designated as follows: Cum Laude — graduating with honor; grade point average of 3.5 or higher
Magna Cum Laude — graduating with high honor; grade point average of 3.7 or higher
Summa Cum Laude — graduating with highest honor; grade point average of 4.0 or higher
Graduates with the highest cumulative grade point average, 4.0, are also identified as King O’Neal Scholars.

ALMA MATER

Hail to thee, our Alma Mater
May thy name be told,
Where above thy gleaming splendor,
Waves the green and gold.
Thou our guide in quest for knowledge
Where we all are free
University of South Florida,
Alma Mater, hail to thee!

Be our guide in truth and wisdom
As we onward go,
May thy glory, fame and honor
Never cease to grow,
May our thoughts and prayers
be with thee through eternity,
University of South Florida,
Alma Mater, Hail to thee!
