Campus Lectures - February 1979
"HUMAN RIGHTS OF THE YOUNG AND OLD"

The Student Civil Liberties Association (SCLA) at the University of South Florida, St. Petersburg Campus, is presenting a forum entitled "Human Rights of the Young and Old" on Tuesday, Feb. 6, 1979 at 12:00 Noon.

The one hour informal program will be held in the North Lounge, Building B, on the St. Petersburg Campus. Panel members include Mr. Gerald Buchert, Director of the Office on Aging; local activist, Evelyn Watts; U.S.F. Tampa Professor Wyle Mangum; and a student. The panel will examine the rights of the young and old, where these rights mesh and differ, and how people can work together. The floor will then be open for general discussion.

The basic needs of aged people are the very same needs of all people: physiological needs of food, shelter, safety; psychological needs of self-actualization, creative expression and esteem are revelant in the lives of all people.

"Young people are stereotyped the same as are old people" says Evelyn Watts. A goal for this forum is to tear down some of these walls through interaction of people - helping people in this age of social unrest and isolation.

There is a myth that growing old is growing only closer to death. "Older people can help younger people develop a positive image of aging," says Buchert. "The young can see the active aged people serving their community."

RUSSELL JOHNSON - AMERICAN FRIENDS SERVICE COMMITTEE

American Friends Service Committee member, Russell Johnson will be at the St. Pete Campus on Thursday, Feb. 8. Sponsored by the Bayboro Humanist Club, Mr. Johnson will speak at noon on the problems of the current Strategic Arms Limitation Talks II, as well as their influences on the U.S. and conditions in Southeast Asia. Free to students and the public.

BACKGAMMON

Backgammon is considered the oldest game known to man not based on strength or throwing skill. There was a vogue for backgammon in the 1930’s, but it went into limbo and was rediscovered about 5 years ago. It caught on rapidly in affluent parts of the country and soon was being played constantly. Those triangular, teeth-like markings on the back of checkerboards caught the public's fancy.

administerative capability and maturity. I am confident he will quickly gain the regard of everyone as he begins work with us at USF.

Dr. Hinz has been a professor of English at the College of Staten Island since 1976. Prior to that, he served as professor, associate dean and Dean of Humanities at Richmond College, also located on Staten Island. He received his B.A. from City College of New York in English and German, and his M.A. and Ph.D. from Columbia University in English and Comparative Literature.

As associate dean/director, Dr. Hinz will serve as chief administrator of, and will be responsible for, all elements of operation on the St. Petersburg Campus.

Some 1,900 students are enrolled on the St. Petersburg Campus which was established in 1965 when USF acquired the former Maritime Administration buildings on 11 acres on Bayboro Harbor in downtown St. Petersburg. Ground was broken in the early summer of 1978 on a 46-acre site adjacent to Bayboro Harbor where expansion of the campus will take place.

INTERVIEW by Deborah Clark

What do you think about the Raconteur? What is it?
—Jeanne Nyree
It's contagious; it's spreading; it's free!

It is the latest USE campus rage in St. Petersburg. It is the new, literary magazine published by the Athenian Literary Society. By the way, Raconteur means one who excels in telling anecdotes.

Kevin Doty says "This is great" while holding an issue in hand. Cherin Stover said, "For a first magazine it was a great effort. I think its a good idea. I liked the whole magazine."

Marsha Davis said, "For all the blood, sweat and tears, it was a terrific job."

Congratulations to the USF St. Petersburg Campus students who made the Dean's Honor List. They will be honored along with Quarter II Dean's Honor students at a celebration in May. Details will be announced Quarter III.

MUSEUM OF FINE ARTS...

NEW WATERCOLORS ON LOAN AT MUSEUM

A special group of watercolors will be on display in the Collectors Gallery of the Museum of Fine Arts from now until Feb. 25. The small collection includes examples of works by leading French, German, and American artists including Stuart Davis, Paul Klee, Henri Matisse, William Pachner; and Pablo Picasso among others.

The group, with the exception of the Pachner which was lent anonymously, comes from the lender, Lorenzo Alvary who has also lent the Museum the Salvador Dali costume and stage designs which are also now on exhibit at the Museum. Mr. Alvary is an internationally known basso, famous for the role of Baron Ochs in the Rosenkavalier by Richard Strauss, and last season at the Metropolitan Opera in Strauss' "Die Frau Ohne Schatten."

He also starred in the opera, "The Spanish Lady and the Roman Cavalier" for which the stage and costume designs were made.

The Museum of Fine Arts is located at 255 Beach Drive North in St. Petersburg. The Museum's hours are Tuesday through Saturday, 10:00 AM to 5:00 PM; Sunday, 1:00 PM to 5:00 PM; closed Monday.

coffee wasn't always a social drink....

In its earliest days, it was considered a cure for almost any type of ailment. The Arabians considered it an excellent stomach medicine. The English, until 1675, advertised it as "a very wholesome and physical drink, having many excellent virtues, helping digestion, and being a good remedy against coughs, cold, rhumes, headache, dropsy, gout, and scurvy."
USF TAMPA PRESENTS "JUMPERS"

"Jumpers," an absurdist romp by Tom Stoppard, set in England of the future, will be performed by Theatre USF Feb. 1-3 and 7-10 at the University Theatre at 8 p.m.

Jack Belt directs the USF version of the '72 English hit, which in 1974 was imported to America and won new fans for playwright Stoppard, and confirmed his reputation as a contemporary master of comedy. "Jumpers" was Stoppard's first full-length play after "Rosencrantz and Guildenstern Are Dead." (produced at USF in 1977).

Paul Massie will play the leading role of George, a semiotics professor of philosophy who endlessly debates the nature of good and evil, and the existence of God, while adultery, murder and chaos rage around him.

Massie, professor of theatre at USF, trained at the London Academy of Dramatic Arts and has a long list of professional credits, on television, stage and screen in Europe. Among them is a British Academy Award, which Massie received for his role in the spy thriller, "Ordegs to Kill.

Other members of the cast include Sherry Rainey, Robert Westman, Greg Mowris, Rhett Wickham, Suzanne Beerman, Tim Blount, Richard Brenner, Ken Cauthorn, Foy Fish, Judi Goldman, Michael Hughes, John Huls, Shelley Myers, Darlene Ruiz, Rebecca Warner.

Set designer Dean Tschetter has created a three-part set with intergalactic motifs, dominated by a huge moon—a central symbol in the play. Costume designer has designed or coordinated some 36 costumes for the production, among them the yellow and brown "jumpers" leotards (the term "jumper" is the English expression for gymnast).

Stoppard, whose use of the English language has moved many critics, was actually born in Czechoslovakia, to Dr. and Mrs. Eugene Straussler. In 1939, just before the Nazis invaded, the Strausslers left for Singapore, where they remained until 1942. In that year Tom and his younger brother and mother went to India. Dr. Straussler stayed in Singapore, (which was occupied by the Japanese) and died there. Subsequently, his widow married Major Stoppard of the British Army, whose surname Stoppard assumed.

Stoppard sometimes refers to himself as a "bounced Czech," one indication of his preference for wordplay. Some critics have maintained that Stoppard's emigre situation is responsible for his artistry in the language: "You have to be foreign to write English with that kind of hypnotized brilliance," one said.

His first major success, "Rosencrantz and Guildenstern Are Dead," was staged at the Old Vic theatre, London, in 1967 and was an immediate triumph.

IT'S A FACT
The Romans and Greeks prized asparagus for what they believed were its medicinal qualities. They thought it would prevent bee stings and cure toothaches, long before they used it for food.

It's estimated that the world's average rainfall is 16 million tons per second.

It's possible for a pair of normal human eyes to distinguish from 8 million to 10 million differences and gradations in color.

The average 7-inch lead pencil will draw a line 35 miles long.
