HALLOWEEN HISTORY

The observances connected to Halloween are believed to have originated among the ancient Druids who accepted the notion that on that evening Saman, the lord of the dead, called forth hosts of evil spirits. The Druids customarily lit huge fires on Hallowmas, apparently to ward off these spirits. Among the ancient Celts, Halloween was the last evening of the year, and was regarded as a proper time for examining the portents of the future. The Celts also believed that the spirits of the dead revisited their earthly homes on that night. After their conquest of Britain, the Romans added to the Halloween traditions some features of the Roman festival held on Nov. 1 in honor of Pomona, goddess of fruits of the trees. The Celtic tradition of lighting fires exists in today's Halloween celebrations and is part of the concept of ghosts and witches myths. Traces of the Roman harvest festival survive British and American customs of playing games involving fruit: bobbing for apples in a tub of water, decorative use of pumpkins to resemble grotesque faces and lit candles inside the hallowed-out gourd. The name Halloween is derived from the fact that it precedes the Christian feast of Hallowmas, ALLHALLOWS, or All Saints day.

A highlight of the day's events occurred when Water Buffalo cheerleader Donna Christensen was (inadvertantly) cast into the pool (no doubt from over-enthusiasm!) Incidentally, if you are interested in playing water volleyball, the Swamp Turtles are currently organizing. Contact Student Activities.
