USF vs HOBART COLLEGE

Feb. 26--Hobart came back with 9 runs in the top of the 8th to defeat USP 13-10. For USF Elwood Newton hit a 400 foot home run, while Jim Neader and Jim Velancy each had 2 hits.

USF vs HOBART COLLEGE

Feb. 28--USF-St. Pete won their first game of the year by beating Hobart 7-1 to even their record at 1-1.

The Mariners were led by the pitching of John Lyons and the hitting of Jim Valeney, Jim Neader, and Jim Merrifield. Lyons threw a 4-hitter, while Valeney, Neader and Merrifield each had 2 hits.

CROW'S NEST
As concerned Florida residents, we support project CAMM (Citizens Against Mechanic Menaces) in an effort to prevent the motoring public from being cheated and victimized by incompetent and unfair automobile mechanics.

Our signatures hereon do not obligate or commit us in any way. We do, however, endorse the movement to put qualified mechanics on the job and we may, at our option, agree to become members of the committee appointed to carry out this program.

The program will include the following points:

1. Prevent hiring of unqualified automobile mechanics.
2. Stop overcharging and unfair rates for vehicle services.

As a result of this program, we hope to:

1. Get unsafe vehicles off the streets and into repair shops.
2. Assure mistrusting customers that they may have reliable and efficient service on their vehicles at a fair and just price.

We therefore, deem necessary the following city or state controlled training and licensing board, which will:

1. Set up a mechanics' training program, whereby mechanics applicants will serve an apprenticeship.
2. Test and license prospective "mechanics" at the end of their apprenticeship and at specified renewal periods thereafter.

We feel that, as a result of this action, the following areas of society will benefit greatly:

1. Business will become more effective toward its own reliability, efficiency, and prosperity.
2. Mechanics will gain status as competent and able workers, claiming the respect of the people and the salary increases brought about by their efficiency.
3. The customer will become more trusting of the mechanic and his employer, and will seek his services and recommend him to others.

SERVICE SHOULD NOT BE JUST A WORD—BUT A WAY OF DOING BUSINESS." (continued on page five)

FROM THE LIBRARY

Please pardon our confusion--still. They have not yet completed the renovation started last year. (Was it only last year? It seems like forever.) But we do hope the library will be an inviting place for all in the near future.

Those of you who are returning will find some changes in location of things, so please ask a librarian if you can't find what you are looking for. You will also notice some new features - at least we hope you will notice them.

We are now getting some recreational reading books on a lending library type basis. These books may be checked out for one week only to provide for a wider scope of circulation. New titles will be added each month.

The long-awaited service for requesting books from the Tampa campus library is now available. Please ask at the Reference desk for the procedures to be followed when requesting this service.

One change which has taken place is not a happy one for any of us. Fines will now be collected on the following overdue material:
1. Intralibrary loan books from the Tampa campus 25 cents per day
2. Recreational Reading books 10 cents per day
3. Reserved material:
   Overnight books 25 cents per 1/2 hour
   3 day and 3 week books 50 cents per day
