The Mushroom Coffeehouse is a service provided by the USF St. Pete. Campus oriented towards all St. Pete., Tampa, and Sarasota area college students intended to provide inexpensive entertainment and activities for Friday and Saturday nights.

An admission charge of a nominal 75¢ is charged at the door to help defray operating expenses. This entitles all patrons access to all coffeehouse facilities, including the swimming pool, pool tables, and, of course, live entertainment.

A secondary feature of this facility is to provide people with an unusual Friday and Saturday evening. It is a great place to rap with friends and listen to some decent music. In short, it is an ideal meeting place.

Many of the greater St. Pete. area musicians and people who just like playing for people find that The Mushroom is "instrumental" in helping or augmenting their musical abilities. If an individual or group is interested in playing at The Mushroom either for fun or with serious intentions, he can play on a space available basis. At most times there is an hour or two set aside for "walk-on". There is, however, regularly scheduled entertainment which includes live music.

Refreshments are available at reasonable costs. Usually the menu includes sandwiches, assorted pastries, cheeses and crackers, coke, lemonade, coffee, and hot or iced tea. Some of the menu items such as pastries are donated by concerned parties and are sold, with proceeds going toward the coffeehouse fund. All prepared foods are obtained off campus and resold at a break-even price.

The entertainment room (stage room) is carpeted and completely air conditioned. At present The Mushroom provides approximately 20 large foam pillows for the patrons to sit on; otherwise people sit on the floor. Although there are no chairs and tables, this informal seating establishes an amiable atmosphere --- a HALLMARK of The Mushroom.

Many of the popular musicians at The Mushroom were people who liked to play only for themselves and discovered the experience of becoming musicians in demand. This has resulted in some groups going semi-professional. Most performers obtain radio and newspaper advertising which further increases their chances of performing professionally.
