At Student Act. Office BOOK from St. Pete Public Library has been FOUND—DRAW, DRAW Children's book.

REGISTRATION

ST. PETERSBURG CAMPUS

AUG. 9

The CROW'S NEST is printed weekly, usually on Tuesday. If you have any announcements, pertinent information, features, personals, free student-to-student ads, please leave them in the Activities Desk.

DEADLINE for submitted material is the preceding Friday before publication.

WE WANT YOUR CONTRIBUTIONS—THANK YOU.
EDITORS:

With all the talk today of pollution, waste, recycling, etc., one thing that constantly disturbs me as I read the morning newspaper, the Oracle, and even the Crow's Nest is the vast amount of paper that is wasted once one has finished reading such publications. There are several recycling locations in our area, but if you live in a small place (like a boat), when you've saved all your cans, bottles, and newspaper for just a short time you soon run out of living space and end up tossing them all in the garbage. I'm sure that many people have similar problems and are not merely apathetic. I would, therefore, like to suggest that possibly through the action of the Student Affairs Committee (since the Student Association no longer exists) a committee be appointed to set up a paper recycling program at the University of South Florida, St. Pete Campus. Delivery of the papers to the recycling plant could be done on a volunteer basis, with those persons who are interested in cleaning up the environment—students, faculty, and staff—volunteering a few hours of their time periodically in an attempt to reduce this deplorable waste. I will be the first volunteer some time in both setting up the program if the Student Affairs Committee so desires and in delivery of the papers to the recycling plant. I hope there are others on this campus who share this concern.

Sincerely.

Joann Day
Staff

---

Dear Loretta Lovely

One can tell Donna C. has finally received her regular glasses—she's not stumbling around anymore in her dark glasses!

Sandy & Joann are obsessed by—Salami?

Egger—we are all wondering where your trophy is?

Vol. 3, No. 27

USFSP's DAY CARE CENTER A REAL DISCOVERY ROOM
Daily, members of the USFSP community viety signs of the age 2 to 6 generation.
These result from approximately 20 children enrolled in the campus' Day Care
Center directed by Liz Moore. The Center, Discovery Room, is located in the
Swimming Pool-Recreational Complex. When enrolling, the children of students are
selected first, then faculty and staff member's offspring. Children must be
potty trained.

Participants in the program, operated Monday through Friday, enjoy learning
new skills via swimming lessons, painting, and reading.

Discovery Room also affords an opportunity to develop language, community,
self-identity, and cooperation taught through play situations. Mechanical
dexterity is gleaned by typing and fixing puzzles. Fun games often involve color
recognition.

Liz Moore has worked with the Center since last March. She became Director
(former Directors were Eileen and Kevin McVeigh) at the start of summer
Quarter and will continue in that position through next year. Liz's special
interests include sewing and creative designs in fabric. She also aims toward
Page 1
completing a degree in Psychology. Her daughter, Heather, is a member of Discovery Room. Diane, has a degree in Elementary Education and is currently working on certification in Early Childhood. She enjoys sewing, cooking, the beach and of course, Kids! Diane will be Co-Director this fall.

Louis Young, a drama major at Eckerd College (formerly Florida Presbyterian College), provides a man's influence at Discovery Room. He will receive a B.A. in January. At that time he wants to go to Carolina and take glider plane lessons. Then, on to Boston for directing and acting assignments. Linda Wilson is completing her A.A. degree in Pre-School and Kindergarten training. Her biggest interest now is getting ready for her wedding in the fall.

IF YOU ENROLL YOUR CHILDREN IN DAY CARE CENTER FOR QUARTER I. EXT. 211 ON CAMPUS CROW'S NEST

FEEDBACK
