I AM USF ST. PETERSBURG!

D. C. White, Instructor in Management Information Systems, grew up in the projects in Brooklyn, NY. Leaving the “frozen tundra” behind her, she came to Florida and earned her Masters and Doctoral degrees. She came to USF St. Petersburg in 1996 with 25 years experience as a consultant in Information Systems in industry. Presently, she is teaching in the College of Business.

Dedicated to her students, she is the advisor to the Management Information Systems Society. Together, with this student organization, they have developed a database for the pharmacy department at the St. Petersburg Free Clinic. This student project also assisted the clinic in helping identify their telecommunication needs.

Active in the community, D. C. White is a member of the St. Petersburg Chamber of Commerce Technology Committee, co-chairing a presentation on Business Ethics to be given to the community in March. She also has an April project planned whereby local businesses will be able to have their websites evaluated and critiqued for ideas of improvement.

D.C. is involved with developing internships at local businesses for USF St. Petersburg students. She believes the interaction between Pinellas County businesses and the students will help develop better-prepared graduates for the business world.

D. C. is a member of the Student Life Committee and is dedicated to the growth of the campus. D. C. believes that dorms will provide a collegial atmosphere and looks forward to students living on campus. D. C. White’s top priority is to fulfill the mission of the campus by preparing superb students in information systems and serving the community.

Mission

USF St. Petersburg offers distinctive graduate and undergraduate programs in the arts and sciences, business and education within a close-knit, student-centered learning community that welcomes individuals from the region, state, nation and world. We conduct wide-ranging, collaborative research to meet society's needs and engage in service projects and partnerships to enhance the university and community's social, economic and intellectual life. As an integral and complementary part of a multi-campus university, USF St. Petersburg retains a separate identity and mission while contributing to and benefiting from the associations, cooperation and shared resources of a premier national research university.
