ART

It is unfortunate that now, just before he is leaving, we are finally introducing Art Cosgrove. If you haven't noticed the tall athletic looking guy with baggy red pants, cut-offs, and a bushy tangle tickling his chin, at least you've heard about things he's interested in. Art is USFSP's Activities Director—he's specialty, recreation. Thanks to Art's wishful thinking has become more than charts and figures.

Art joined USF during summer Quarter, coming from Westport, Conn., with his wife Marty. Since Art's arrival an array of projects have been tackled. It's impossible to cite them all, at the risk of sounding like a checklist, but to name a few—volleyball, tennnis, basketball and assorted tournaments; the recreation complex, including coffeehouse, swimming pool, game room and day care center.

Art will undoubtedly skim this page with great embarrassment as he prefers to avoid special notice. Westport is lucky to have you coming back. Best wishes.

Our thanks seems not enough. You will be missed, Legs. Very much.
