OF THE MASQUERADE CONTEST

Held on Friday, Feb 26

A conference was held with the Counselors from S.P.J.C. and staff members of our campus. The purpose of the meeting was to discuss course equivalents and admission procedures. A similar conference is being planned for the guidance counselors from Manatee Junior College.
Janis Joplin began as a country blues singer and then moved into rock, but in "Pearl" she has returned to her beginnings. The emotive impact of her style and her sound is retained in this album. There also exists a greater intimacy with the listener which usually is only achieved by a live performance. Janis varies the subject and the mood of her songs; she combines satire and humor in "Mercedes Benz"—an attack on the middle class. "Bobby McGee" is a projection of pure Janis and pure blues, while "Baby" and "Get it While You Can" are hard blues.

Contrasting the previous is the background music present in "Pearl". Instead of the electric sound, most of her songs are recorded with piano and soft guitar. It is for this reason that the quality and range of her voice is so much more evident in this album.

Janis Joplin is fantastic (in my opinion) for her sound will be her a legend. To quote Clive Barnes, "Janis, why did you have to go so soon?"
