FRIDAY-EVENING• FILM • SERIES

The University of South Florida, St. Petersburg Campus presents its FRIDAY FILM SERIES beginning September 29. Films will be shown in the newly renovated Auditorium located in A-Building promptly at 8:00 PM. The Series is open to all college students and their guests. Please bring your student ID.

SEPTEMBER 29
COLOR
Probably rated PG
starring PAUL NEWMAN, GEORGE KENNEDY, JO VAN FLEET

When the establishment tries to put the clamps on a fiercely independent spirit, the result is explosive. Set in the deep South, the story centers on a barely disciplined chain-gang and the prisoner Luke who must defy any system which seeks to limit his personal freedom.

Judith Crist on NBC-TV said, "Newman's portrayal...a stringently contemporary screenplay, and...sharp rhythmic direction...give (the film) a pertinence and distinction..." Bosley Crowther in the NEW YORK TIMES said of the cast, "Paul Newman is superb in this forceful portrait of a man born to lose...totally unsuitable cast." Paul Newman was nominated for the Academy Award for Best Actor; George Kennedy won for Best Supporting Actor, 1967.

OCTOBER 6
COLOR
Rated G

The REIVERS
starring STEVE McQUEEN, SHARON FARRALL, RUPERT CROSSE

In Cinema Center Films' rollicking adaptation of William Faulkner's Pulitzer Prize winning novel, Steve McQueen proves himself to be a comedy actor of rare gift and timing. THE REIVERS recounts the adventurous journey of Boon Hoggenbeck (McQueen) and his maddening (Rupert Crosse) as they show 12-year-old Lucius (Hitch Vogel) the way life really is. The journey is a spirited joust from rural Mississippi to Memphis in a yellow 1905 Winton Flyer, and a stay there in the "big city". TIME said it was, "One of the year's most pleasant movie experiences."
**Petulia**
starring George C. Scott, Julie Christie, Richard Chamberlain

"A terrific movie...a brilliantly conceived, carefully aimed, splendidly detailed satire...ferocious and ultimately energy (is) displayed in this highly moral, yet unmorralitic film..." LIFE magazine.

The fantastically brilliant and resourceful British director, Richard Lester (A HtD DAYS NIGHT, A FUNNY THING HAPPENED ON THE WAY TO THE FORUM) rockets across the screen with a scorching, multiform study, in the most versatile film techniques, of love, wedlock, family, the male species and the female during the tormented sixties. Scott and Christie play a man and a woman disassociated from the power of love, struggling for it, unable to give or take it.

**Kelly's Heroes**
starring Clint Eastwood, Donald Sutherland, Carroll O'Connor, Telly Savalas, Don Rickles

This fantasy-tinged film pits casual, slow-talking Eastwood and tough sergeant Savalas in an escapee leading a group of U.S. soldiers 20 miles behind German lines to rob a gold bullion bank. Brian Hutton directed this all-male far-fetched adventure.

**Happy Halloween**
with Vincent Price, Peter Lorre, Boris Karloff, Basil Rathbone.

A ghoulish comedy designed to delight mystery horror fans. Price and Lorre team up to revitalize a dying funeral establishment by creating customers in some very bizarre ways.

**Downhill Racer**
with Robert Redford, Gene Hackman, Camilla Sparv

Highly skilled but undisciplined, skier Redford, a sullen and anti-social Colorado farmboy, is called to Europe to replace an injured member of the U.S. Olympic team. Lacking in team spirit, he continues to dedicate his life not to sports but to rising to the top of it. He becomes award material, only to learn that winning can be a momentous thing.

Director Michael Ritchie strapped a camera to a skier's helmet and had him race downhill at speeds up to 60 miles an hour, focusing on the dizzyingly blurred snow ahead. The only sound heard are ears of the skin flying jet-like over the snow and the laboring breathing of the skier.

**Born Free**
with Bill Travers, Virginia McKenna

Real-life husband and wife team McKenna and Travers play the Adsons—a senior game warden and his wife in Kenya, who who inherit three lion cubs whose parents were killed. The wife Joy becomes particularly attached to Elsa, the smallest cub, who is born free. The solutions are quite amusing and the entire film is one of the most delightful seen in years. Winner of Academy Award for Best Song, Best Original Music Score, 1966.

This public document was promulgated at an annual cost of $141,30 or .039 cents per copy to inform college students about the Friday Evening Film Series held at USF's St. Petersburg Campus.

During the past quarter, several scorpions have been found at various locations on campus. According to *Encyclopedia Britannica*, scorpions are "the most primitive land arachnids and the oldest...are reputed to have been the first land animals." Although the Florida species is not deadly, "the venom of most scorpions causes mild to severe local reactions at the site of the sting." According to N. F. Gutsy, General Telephone Co., a variety of numerous encounters, the sting "swells and hurts like hell for several days." Scorpions abound in humid tropical areas and in hot deserts, in varieties of species. The giants are the great black creatures from tropical Africa, frequently seven inches long (average nine inches about half that).

At the beginning of the quarter, extensive spraying was done on campus to eliminate small bugs and pests. The exterminators, in essence, eliminated the scorpions' food supply. As a result, we now have a campus full of hungry scorpions stalking students as they innocently attend classes. Recently a foot-long wasp was found crawling leisurely across the conference room area. Please call Ron at 595-2376 for further action after the dismissal of Dr. Aramis's History class. Scorpions have also been found in faculty offices and the auditorium. According to our local Pest Exterminators, scorpions can be eliminated by a liquid chemical called Bakers D-Con. Should CSPP or students of USPP tolerate the uncontrolled encroachment of scorpions? Help.
