New WaterLife Program
Filed under eNews Newsletter on Wednesday, January 31, 2007 by Author: Erika Llenza.

Faculty, staff and students can take advantage of the new WaterLife program offered through the Waterfront, an Office of Student Life.

The WaterLife program was developed to offer students more out-of-classroom experiences, in, on and around the water," said Teresa Przetocki, aquatic programs coordinator. "With a growing campus population, we felt it was necessary to provide students with more things to do in the area. We are in a prime location for lots of water-related fun."

The WaterLife program breathes new life into the former Waterfront program by adding new activities such as: kayak adventures, snorkeling trips, sailing classes and water fitness workouts such as H2O kickboxing and Kids Aquarobics.

Visit the Waterfront Office Web site www.stpt.usf.edu/waterfront for more information or click here for the WaterLife schedule.
